## **No Beer or Liquor May Be Brought on Golf Course Grounds**

This is the law, our insurance and license will be revoked if allowed. The board adopted the following policy: (this pertains to members as well as non-members).

- First Offense – they will be done for the day, no refunds
- Second Offense – done for a month
- Third Offense – done for 1 year or the remainder of the season

Whoever is working in the clubhouse or on the grounds is in charge of policing this; however our employees alone cannot be the only one policing this. We encourage any member to help us police this. If you see someone bringing their own alcoholic beverages onto the premises, you do not need to confront this person, please just speak to an employee of the club, and management along with the board will handle the situation.

*Remember, in addition to the legal and insurance implications, this practice directly impacts the entire membership. We have fixed expenses year in and year out. If we cannot create enough revenue to offset our expenses year after year, the burden then falls back on the membership with increased dues and prices.*
